Presentation of the City of Łódź

Dear Mr. President, Dear Mr. Lord Mayor of the City of Łódź,

With this letter I wanted to congratulate again for the marvellous idea to present the coming host-city of the 2009 European Championships here in Luxembourg. People in Luxembourg were taken very positively how friendly Polish people are. Not just all the supporters who did show great sportsmanship during all matches, but the various activities of presentation (jumping contest, welcome cocktail, cheer leaders etc.) did leave a very positive impression on the upcoming championships.

If we would get another chance to organize again such a big event, we would present ourselves definitely in a similar way a long way ahead like you did!

Some people did even ask me, if how they could be kept updated, so they wouldn't miss visiting Łódź for the Finals in 2009. This is definitely the best sign, that it had a great impact here in Luxembourg. And I know personally some Polish Volleyball-Coaches who live in Luxembourg who received congratulations for those presentations and they were very happy to show everyone what nice country they are coming from!

Thanks and once again: I would in Łódź!

With sportive regards,

Peter Eichstädt
President of the Organizing Committee of Luxembourg 2007
